Radiology Department at Sharon Hospital Awarded Three Year Accreditation for MRI

Sharon, CT – The Radiology Department at Sharon Hospital has been awarded a three-year term of accreditation in MRI – Magnetic Resonance Imaging as a result of a recent survey by the American College of Radiology.

The ACR, headquartered in Reston, Virginia, awards accreditation to facilities for the achievement of high practice standards after a peer-review evaluation of the practice. Evaluations are conducted by board-certified physicians and medical physicists who are experts in the field. They assess the qualifications of the personnel and the adequacy of facility equipment. The surveyors report their findings to the ACR’s Committee on Accreditation, which subsequently provides the practice with a comprehensive report.

“Sharon Hospital’s Radiology Department has made a commitment to the community and its healthcare providers to offer MRI services of the highest quality; subjecting ourselves to the ACR’s thorough and ongoing evaluations, we continue to maintain and improve our standards of care and quality” according to Carolyn Smith, Director of Radiology at Sharon Hospital.

For information about the comprehensive services offered at the Radiology Department at Sharon Hospital, call 860.364.4468.
